This covert antenna is a genuine OEM antenna for Citroen and Peugeot, fitted to most of their range of vehicles. A general purpose antenna that would be an ideal replacement for any vehicle to provide multi-functions. The antenna is a single nut fixing with 2 x 300mm RG316 low loss cables exiting the antenna. Two separate tails supplying VHF and Tetra so no need for extra multiplexers unless AMFM is required. This antenna can be purchased with many different functions. Please contact us for more information

This antenna can be purchased with many different frequency bands. Please contact us for more details
