This covert antenna is a genuine OEM front centre roof antenna from Ford Focus CC. With a large base it can be used as a general purpose antenna that would be an ideal replacement for any vehicle to provide multifunction's. Dependant on the frequencies required, whip heights can be adjusted to suit your requirements. The antenna is a panel mount antenna with a single nut fitment and features a removable whip to allow for maintenance. This particular part number has 1x 300mm RG316 low loss cable exiting the antenna. Optional RF connectors can be specified when ordering, and can be supplied with a full range of extension cable assemblies, and multiplexers to allow you to retain AMFM functions of a vehicle.

Specifications: Frequency Bands : UHF (F2)

Band	UHF
Frequency	350 - 392 MHz
Input Power	50W
Gain	5.15dBi
Polarisation	Vertical
VSWR	<1.5:1
Impedance	50Ω
Coax & Termination	1x 300mm RG316 Low Loss Coax terminated to FME (f)
Temp. Range	-20° C to +60°
Dimensions (mm)	L320
