

# FULL COVERT FORD FOCUS ANTENNA 3 FUNCTIONS

Part No. SAFD10640-C4-K-B

## SureAntennas®

### Covert Antenna Solutions

This covert antenna is a genuine OEM antenna for a 2011 and onwards Ford Focus and is fitted to most of their range of vehicles. With a large base it can be used as a general purpose antenna that would be an ideal replacement for any vehicle to provide multi-functions. Dependant on the frequencies required, whip heights can be adjusted to suit your requirements.

The antenna is a panel mount antenna with a single nut fitment and features a removable whip to allow for maintenance.

This particular part number has 2x 300mm RG316 low loss cable exiting the antenna, terminated to an FME female.

Optional RF connectors can be specified when ordering, and can be supplied with a full range of extension cable assemblies, and multiplexers to allow you to retain AMFM/DAB functions of a vehicle.
