

SK010018 'Sandcastle' SKODA 4th Gen Fitting Kit

Introducing the **'Sandcastle' SKODA 4th Gen Fitting Kit (SK010018)**, a specially designed kit for secure and effective **GSM and GPS connectivity** in your SKODA 4th Gen. This fitting kit provides a clean, concealed installation option with simple guidance for **optimal performance**. The **LTE T-Bar antenna** is designed to adhere neatly onto the inside of the headlining or a window, allowing for a **discreet setup** that maximises signal strength. For the **GPS antenna**, ensure the **"SKY" side faces upward**, ideally positioning it horizontally under plastic trim near a window and free of any metal obstructions above. This careful placement ensures the best **GPS performance**, keeping your SKODA reliably connected without compromising on aesthetics or functionality.

After completing the installation, power up the vehicle and check the dashboard status screen for any **'SOS' error messages**. If such an error appears, double-check all connections and reset the vehicle software using the manufacturer's service tools. Should the issue persist, please **contact our technical team** on +44 (0)333 360 9249 for further assistance.

Technical Specifications

	1x OEM GSM Antenna	1x OEM GPS Antenna
Mechanical Data		
Dimensions (mm)	H7xW140xL25	H15xW35xL35
Operating Temp (°C)	-30 / +70°C	-30 / +70°C
Colour	Black	Black
Cable Data		
Cable Type	LBC100	LBC100
Length (m)	5	5
Termination	Burgundy FAKRA (m)	Blue FAKRA (m)
Mounting Data		
Mounting Type	Adhesive	Adhesive

Subject to change.
