

Supply & Modify Covert Hyundai iLoad i30 Antenna – 1 FUNCTION

This **covert antenna modification** is for a genuine **OEM rear roof antenna** for the **Hyundai iLoad & i30 models**, and can be fitted to a lot of their range of commercial vehicles. The antenna is a **rear centre roof panel mount antenna** with a single nut fitment and features a **removable whip** to allow for vehicle washing and maintenance. This particular part number has 1x 300mm **RG316 low loss cable** exiting the antenna. Optional RF connectors can be specified when ordering, and can be supplied with a **full range of extension cable assemblies, and multiplexers** to allow you to retain the **OEM functions** of the vehicle. This antenna can also be **modified to many different frequency bands and functions**. Please contact us for more details.

Technical Specifications*

Band	TETRA	OEM Functions
Frequency Range (MHz)	380-430 MHz	All OEM functions & connectors retained.
Input Power	25W	
Gain	5dBi	
Polarisation	Vertical	
VSWR	<2.5:1	
Impedance	50Ω	
Connection	SMA (m) 300mm RG316	
Extension Lead	BNC (m) 5m SBC195	

*Tested using 5m of SBC-195 on 1.5m ground plane. **Gain calculated using HFSS.

Subject to change.
